Shared bookshop : User Guide

Add a new shared resource to a course

In this case, the teacher, in the process of developing his course, wishes **at the same time** to add a resource but also to bring it to the common documentary collection.

This operation is performed during a “resource addition” (in the Moodle sense) in the course.

- Invoke the addition of a shared resource
- Choose the “new resource” option

The sequence continues with the steps of the documented case “Addition of an existing shared resource in a course”:

- Download / build the resource
- Information (reduced to the “author” scheme)
- Registration

The procedure then refers to a search result, with the new resource preselected to publish in the course.

Back to Sharedresource activity User Guide - Back to plugins index - - Back to catalogue Ou Back to subsystem index
