The ShopObject Class

Moodle INtegrated Shop : Structural elements

The ShopObject is the base class for all other functional classes of the Moodle Shop. It will provide a basic API for any othe robject and an abstraction layer to the DB storage.

Any object based on this class and telling which DB table it uses will provide a full internal mechanism to deshydrate and rehydrate data from database.

Méthodes

Constructeur __construct

```
@param mixed $recordorid
@param string $recordtable
```

Getters et Setters

save()
