

Digicode authentication : User Guide

Introduction

There is no direct use of this component, except the ability to a user for performance reasons, to connect to Moodle via standard login and password replaced by a digicode, to arrive directly on an internal page of moodle and under his identity.

use case

A Moodle platform with high but punctual load peaks, requiring a very high number of simultaneous connection.

Login page

The screenshot shows a Moodle login interface. At the top, there is a 'Username:' label followed by an empty text input field. Below this is a grey rectangular box, likely for a password. The central feature is a digicode keypad, which is a 2x5 grid of red buttons with white numbers: the top row contains 0, 9, 2, 4, 7 and the bottom row contains 1, 5, 3, 8, 6. Below the keypad is a blue 'Log in' button and a checkbox labeled 'Profiling'. At the bottom of the form, there is a message: 'Your exam will take place the 4th of June. Your access is granted for 60 (s ixty) minutes only.' and a link labeled 'Other users'.

Configuration

Access

Site administration/plugins/authentication/digicode access

Active

yes/no: No default. When enabled, the users can use their short digicode for quick access to moodle.

enable password expiry

Allow passwords to expire after a specified time.

Instructions

Instructions optionnelles affichées sous la mire de connexion

Restriction type

The type of target for the restriction

- None
- user profile field
- Capability on context
- Role in context

Restriction context

Context in which restriction is applied : The context of the restriction where the criteria will be evaluated on

- Site
- Course
- User

Restriction value or filter

A value or filter expression to restrict digicode allowed users
