Installation Guide

Availability condition at day shift from course start

Installing the plugin

this plugin installs in the start way:

- Unzip the plugin archive in the /availability/condition directory of your moodle installation.
- Browse to the *Administration* > *Notifications* to terminate the install.

Global Settings

IMPORTANT NOTE : Availability restrictions are NOT configurable until Moodle 3.0. 

Global settings are located in the Site administration menu at the path :

`Site administration > Plugins > Availability restrictions > Days`

The administrator can choose just one option in the plugin global settings:

Reference date

The reference date for calculating the cutoff date can be choosen as being:

- **The course start date**. In that case the cutoff date for the controlled item is absolute and identical for all students. (default)
- **The date of the user's enrolment**. In that case the cutoff date will be relative for each student individually and equally.
