Availability condition : Days

- **Component type:** Availability
- **Name:** Days
- **Family:** Automating
- **Versions:**  to 
- **Distribution:** Moodle MarketPlace
- **Availability:** Stable

Important : read our plugin support policy

This plugin allows opening/closing activties or resources on a day shift condition from a reference date. It has been intended to help setup of MOOC or SPOCS volumes where the progression is automatically scheduled on a calendar basis. It can be added to the standard availability conditions of Moodle.

Guides

- Installation guide
- User guide
- Technical guide / Not relevant

Features

This plugin is quite simple:

- Adds an availability condition to activities or sections.
- Choose a relative day shift for opening an activity.

Builds

Note : Failing status is not necessarily the sign of a non functionning module. It just says that the moodle code standards check are not fullfilling. This is a continuous effort of us rewriting the plugin code to get it compliant.
