Availability condition: Time spent in the course (SectionTime)

- **Component Type:** Availability condition
- **Name:** Section Time
- **Technical Name:** availability_sectiontime
- **Versions (maintained):** m41 to m51
- **Distribution:** moodlemarketplace
- **Availability:** Stable

This plugin makes it possible to make activities accessible only after a certain working time has been measured in a designated section of the course. The measurement of this working time is obtained from the block Use Stats which must be installed beforehand in Moodle.

Guides

- Install Guide
- User guide
- Technical Guide: Not relevant

Prerequisistes

This module is based on the Use Stats Block as main provider of the spent time measurements.

Features

This module has a very simple structure.

- Added an availability rule.
- Choice of a time (in minutes) and a reference course.

Builds

Branch	Check status
405	MOODLE_501_STABLE pending
501	MOODLE_501_STABLE passing

Note : Failing status is not necessarily the sign of a non functionning module. It just says that the moodle code standards check are not fullfilling. This is a continuous effort of us rewriting the plugin code to get it compliant.
