

Installation Guide

Availability condition per week from course start

Installing the plugin

this plugin installs in the start way:

- Unzip the plugin archive in the /availability/condition directory of your moodle installation.
- Browse to the *Administration > Notifications* to terminate the install.

Global Settings

the administrator can choose just one option in the plugin global settings:

Reference date

The reference date for calculating the cutoff date can be choosen as being:

- **The course start date.** In that case the cutoff date for the controlled item is absolute and identical for all students.
- **The date of the user's enrolment.** In that case the cutoff date will be relative for each student individually and equally.
