# **Installation Guide**

# Availability condition per week from course start

### Installing the plugin

this plugin installs in the start way:

- Unzip the plugin archive in the /availability/condition directory of your moodle installation.
- Browse to the Administration > Notifications to terminate the install.

### **Global Settings**

the administrator can choose just one option in the plugin global settings:

#### **Reference date**

The reference date for calculating the cutoff date can be choosen as being:

- **The course start date**. In that case the cutoff date for the controlled item is absolute and identical for all students.
- **The date of the user's enrolment**. In that case the cutoff date will be relative for each student individually and equally.
