Availability Condition : Week

Presentation : Restrictions by week from start

This plugin allows opening/closing activties or resources on a week shift condition from a reference date. It has been intended to help setup of MOOC or SPOCS volumes where the progression is automatically scheduled on a calendar basis. It can be added to the standard availability conditions of Moodle.

Technical sheet

- **Component type:** Availability
- **Name:** Week
- **Family:** Automating
- **Versions:** m39 à m45
- **Distribution:** moodlemarketplace
- **Availability:** Stable

Features

This plugin is quite simple:

- Adds an availability condition to activities or sections.
- Choose a relative **week shift** for opening an activity, based on enrolment date for user, or on course start date.

Builds

Branch	Check status
405	MOODLE_405_STABLE failing

Branch	Check status
501	MOODLE_501_STABLE passing

Note : Failing status is not necessarily the sign of a non functionning module. It just says that the moodle code standards check are not fullfilling. This is a continuous effort of us rewriting the plugin code to get it compliant.
