Conditional HTML block

Presentation

This block places a content panel in the course (like the HTML block) whose display is driven by a conditional evaluation written as an evaluable MoodleScript expression.

This block works with the Moodlescript scripting engine, using its expression evaluation feature.

The guides

- Installation guide
- User guide
- Technical guide

Feature summary

- WYSIWYG content editing
- Conditional display
- Flexible expression syntax on context data

Other blocks you may be interested in

- EditableContentHTML - Content with delegated editing.
- GroupSpecificHTML - Content specific to some groups.
- GroupSpecificHTML - Content specific to some groups.
- RoleSpecificHTML - Content specific to some roles.
- ProfileSelectorHTML - Content specific by profile selector.
- ProfileSpecificHTML - Content specific on a profile rule.

- **Name:** Conditional HTML
- **Technical name:** block_conditionalhtml
- **Functional family:** Content accessories

- **Supported versions:** m41 to m53
- **Distribution:** Public
- **Availability:** Stable
- **GDPR compliance:** >= 3.9

Builds

Note: a “Failing” status does not necessarily mean that the plugin does not work. This status reflects the result of automated tests checking the code against Moodle's strict standards. We are continuously working on bringing all supported plugins progressively into compliance with these development rules.

Branch	Continuous integration tests
405	custom badge resource not found
501	custom badge resource not found
