Course Ascendants Block

LIVE ActiveProLearn course

This block is an accessory to help with metacourse binding strategies, and was designed to simplify and facilitate enrolment dépendancies between several courses.

Meta course reminder

This block is useful for teachers who intend to quickly activate or desactivate a module (metacourse) in a cursus (course where the block is implemented) from a set of courses (available metacourses) selected from the chosen course category.

Guides

- Install guide
- User guide
- Technical guide

Associated plugins

- Course Ascendants block can be used appaired with Course Descendants blocks added to course submodules. Both blocks will provide a full consistant intercourse navigation principle.

Features

- Course submodules location selection (as a category)
- Quick submodule binding/unbinding
- Nice course submodules summary with completion indicator
- Hide/show course category names
- Automated group creation on binding representing the source master course

Credits

- Valéry Frémaux (valery@activeprolearn.com)- Developments and tests
- Florence Labord (florence@activeprolearn.com) : Documentation and fonctionnal review
