Generic Query Catalogue

Dashboard Block (Dashboard Element)

Data refresh

The refresh of data in the cache and an output file can be scheduled in time. You can choose to output the data according to the general setting of the dashboards' cron function, or choose another particular moment for this instance.

- **Refresh scheduling mode:** You have 3 choices

1. No refresh
2. Global cron settings
3. Instance settings: If you choose this option, specify the other settings below

- **Hour:** Choose from the drop-down list.
- **Minute(s):** Choose from the drop-down list.
- **Send administrator notifications on cron:** Tick the box to enable this choice.
- **Frequency:** Notification frequency. Choose the day of the week of your choice or “Every day” in the drop-down list.
