Database behaviour block

Presentation

This block lets you drive a set of changes to the behaviour and interfaces of Moodle's standard database activity.

The block gives access to an activity setting (the database activities present in the course) to modify their behaviour individually.

User guides

- Installation guide
- User guide
- Technical guide

Feature summary

- Disable list display
- Clarify the interface (with or without tabs)
- Hide or show the search
- Hide or show the individual record display

Technical sheet

- **Component type:** Block
- **Name:** Database behaviour
- **Technical name:** block_data_behaviour
- **Supported versions:** m41 to m53
- **Distribution:** Unrestricted
- **Availability:** RC

Builds

Note: a “Failing” status does not necessarily mean that the plugin does not work. This status reflects the result of automated tests checking the code against Moodle's strict standards. We are

continuously working on bringing all supported plugins progressively into compliance with these development rules.

Branch	Continuous integration tests
405	custom badge resource not found
501	custom badge resource not found
