Data Cart block / Data retrieval assistant

Presentation

This block lets users collect data from the “database” activity into a cart, for export purposes. The export is performed by a third-party module able to format the data or produce documents.

Currently, the only supported third-party module is APL's Pro Certificate module.

Features

- Adds a button to add to the “Data cart” in the database activity records
- Lets you launch an export of the cart.
- Lets you launch an “anonymised” or non-anonymised export of the cart
- The cart can be renamed

Guides

- Installation guide

Technical sheet

- **Component type:** Block
- **Name:** Data retrieval assistant
- **Technical name:** block_data_cart
- **Supported versions:** m41 to m53
- **Functional family:** Teacher tools
- **Distribution:** PRO
- **Availability:** Being stabilised
- **GDPR compliance:** >= :todo:

Builds

Note: a “Failing” status does not necessarily mean that the plugin does not work. This status reflects the result of automated tests checking the code against Moodle's strict standards. We are continuously working on bringing all supported plugins progressively into compliance with these

development rules.
