

Block Learning Time Check : User Guide

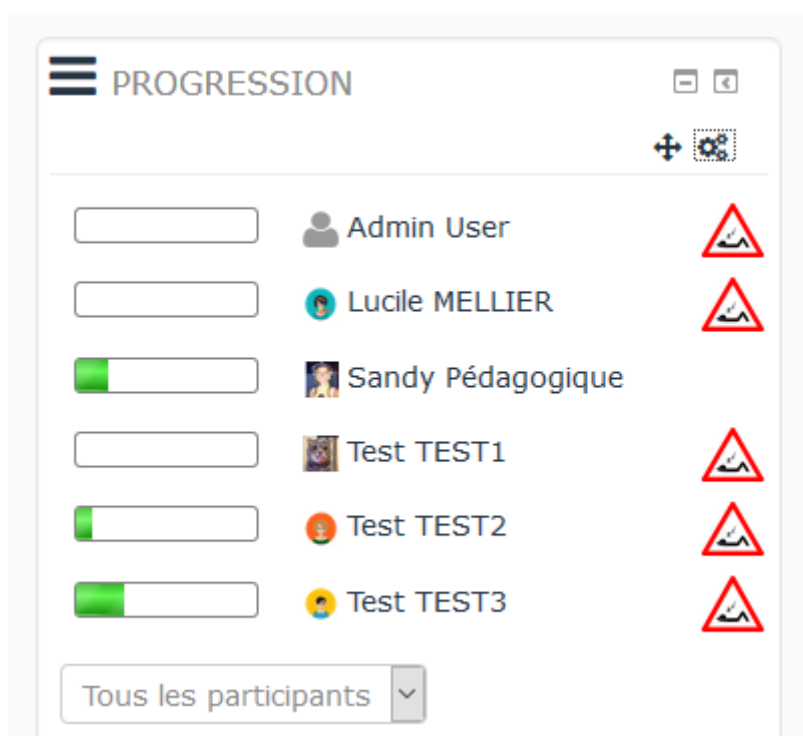

Introduction

“**Learning Time Check Summary**” is an element of facilitation for your learners in terms of follow-up on the expectations of the course. The learner visualizes his progress on the course, and optionally the stall signal.

It is also used by teachers who can visualize all the advances, and student dropouts according to the chosen settings.

Result on a course

Result on a course with active stall signals active (see settings).

Add bloc on a course

Switch to Edit mode using the button under your login name.

Drop-down menu Add Block / Summary of learning times

Block settings

- **Title** : Default : Progress, but you can add another one.
