

Block Use Stats (User Time tracking): DB Model

Le bloc Use_Stats ajoute deux tables à Moodle.

Table : block_use_stats

This table is used a calculation cache for global sums.

Table : block_use_stats_log

Is used to store the “per record” additional cubing information.:

- **logid:** the standard log record id
- **timegap:** the gap time between this record ans the following record of the same user in the log. (At the moment unused)
- Main standard qualifiers (courseid, userid)
- 6 additional cubing fields
