

Administrator Guide

Format page

Global settings

Path : Site administration ⇒ plugins ⇒ course formats ⇒ page format

- **Protecting identification (protectidnumbers):** If enabled, page idNumbers are non-modifiable. New pages have a non-filled/empty idNumbers. This is essentially useful in case of automated course structure creation.
- **No public pages (nopublicpages) :** If checked, prohibits unconnected access to public pages. Public pages are readable only by authenticated users (including guest user).
- **Protecting the administration (protectadminpage):** If checked, the initial administration page will be created in “protected” mode, forbidding teachers (including editing) to alter it.
- **Browsing images (navgraphics):** Enable or not alternative images. Simple arrows by default.
- **Alternative images for the page format (pagerendererimages):** Some images must care respecting expected names (see list), essentially to customize the previous/next buttons. Png or JPG expected.
 - next_button
 - next_button_disabled
 - prev_button
 - prev_button_disabled
