Page Format: Capabilities

Capabilities

format/page:editpages

People with this capability can modify the settings and content of the page.

format/page:editprotectedpages

People with this capability can modify the page settings even if it is “protected”.

format/page:viewpublishedpages

People with this capability can see published pages. (in principle all users).

format/page:viewhiddenpages

People with this capability can see unpublished pages. This is generally a capability given to all roles except students.

format/page:addpages

People with this capability can add new pages to a course.

format/page:storecurrentpage

People with this capability can memorise the last page visited. If they do not have this capability, arriving at the course URL without an explicit page mention will send them to the first visible page of the course, in the course plan order.

format/page:managepages

People with this capability can manage pages, with all the functions of moving, managing the access mode, turning into a template or deleting.

format/page:viewpagesettings

People with this capability can view the page properties but cannot modify them.

format/page:quickbackup

People with this capability can trigger a quick course backup button. (This backup is made WITHOUT users).

only if userequipment is present, even inactive

format/page:canchoose

If the capability is removed, the page format cannot be chosen in the course settings. (audience concerned: editing teachers and course creators).

format/page:canchangeformat

If the capability is removed, the course settings cannot be changed to switch format. (audience concerned: editing teachers and course creators)

Capabilities linked to the "Pro" version

format/page:discuss

Users with this capability can access a discussion page (an accumulative journal).

format/page:individualize

Users with this capability can schedule an individualisation of access per user or per group.

Special capability

format/page:checkdata

Users with this capability can check the technical structure of the course.

Viewing videos when the page is public

To allow videos to be viewed in public mode, do not forget on the guest role. moodle/block:view
