Reorganize pages

Course page format

When in editing mode, click on **Reorganize pages** to get a page tree management screen

Administrators can globally choose between JS Tree and Flat reorganisation modes.

- JS Tree : Using a Drag and Drop library, may be a bit confusing, specially when trying to reorganize the top level.
- Flat tree management: Less confusing, but needs much more actions do rearrange things.

JS Tree arrangement method

Flat Tree arrangement method

Why not getting a nicer way ?

At the moment, all “clever” JS library to deal with tree dynamic arrangement that work effectively

“well” are non GPL and often Commercial Licenced. We will check in future roadmap better candidates for this feature.
