

APL Shared libraries

APLPlot : Additional libraries for graphing

The **local_aplplot** plugin is a shared dependency of many APL plugins needing enhanced plotting capabilities. The most part of it is providing JQPlot, a MIT licenced, open-source and very flexible and complete plotting JS.

This library will also accumulate additional less used but yet useful features, such as Timelines, sparklines, Geomapping facilities, etc.

Guides

- [Installation guide](#)
- UserGuide : There is no User Guide as no directly usable features by end users.
- [Technical guide](#)

Featuring

List of additional libraries

- *ChartJSPlus: **An augmented library (compared to the standard ChartJS) of simple graphs.** JQPlot: **The MIT licenced HTML5 plotting library allowing precise tuning of graphs.** JQWidgets: **A selection of Javascript widgets based on JQuery.** Sparklines: **Trendy micrographs (jquery)** TimeLine: **A plot library of time lines** `<html><!-- nomoodle -></html>` **=== See also ===** [APLCORE shared library](#), [APLPdf shared library](#) [Back to plugins catalogue](#) `<html><!-- /nomoodle -></html>` **===Technical details===** * Component type: **Local** * Plugin name: **aplplot** * Versions: >  * Distribution: **Public** * Availability: ** RC
