

APL Shared libraries

APLPlot : Additional libraries for graphing

The **local_aplplot** plugin is a shared dependency of many APL plugins needing enhanced plotting capabilities. The most part of it is providing JQPlot, a MIT licenced, open-source and very flexible and complete plotting JS.

This library will also accumulate additional less used but yet useful features, such as Timelines, sparklines, Geomapping facilities, etc.

Guides

- [Installation guide](#)
- **UserGuide** : There is no User Guide as no directly usable features by end users.
- [Technical guide](#)

Featuring

List of additional libraries

- **ChartJSPlus**: An augmented library (compared to the standard ChartJS) of simple graphs.
- **JQPlot**: The MIT licenced HTML5 plotting library allowing precise tuning of graphs.
- **JQWidgets**: A selection of Javascript widgets based on JQuery.
- **Sparklines**: Trendy micrographs (jquery)
- **TimeLine**: A plot library of time lines
