

Back Office : Configuration and implementation of a commercial offer

Lettering

Bill lettering

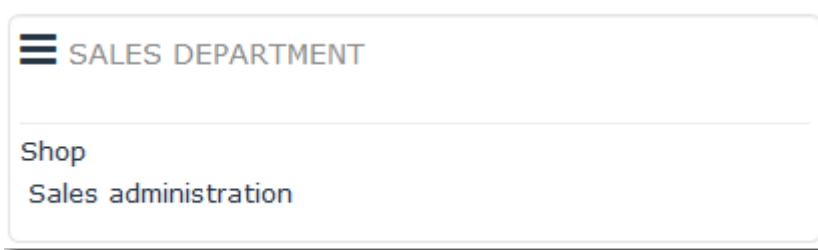

Bill lettering records the correspondence between the store's online invoices and external billing software.

According to legislation, legal obligations require the numbering of bills. The Moodle Online Store records bills online for the only Moodle sales activity. It is essential to be able to make the correspondence between the online transactions and the bills “officially” established in an accounting software.

Lettering can not accept several identical references, whatever the catalog used by the store.

Access using block Sales department

Follow link “**Sales administration**” in block [Sales department \(Shop Access plugin\)](#)

Follow link “**All bills**” on page Sales services/ section “Sales management”.
