

Eléments de catalogue : Attached files

Moodle Shop structure documentation

Introduction regarding attached files

Each “individual product” or “bundle” type catalogue item can be associated with a certain number of files. Files associated with a “set” type item will not be used.

Detail regarding attached files

Thumbnail

A small-size image appearing on the product presentation page.

Image

An appropriately sized (800×600 recommended) image or photograph to provide an overview of product detail.

Unit icon

The image used to represent sales units when the product is chosen.

Information brochure/ Technical data sheet

A PDF file associated with the product.
