

# The ShopObject Class

## Moodle INtegrated Shop : Structural elements

The ShopObject is the base class for all other functional classes of the Moodle Shop. It will provide a basic API for any othe robject and an abstraction layer to the DB storage.

Any object based on this class and telling which DB table it uses will provide a full internal mechanism to dehydrate and rehydrate data from database.

### Méthodes

#### Constructeur `__construct`

```
@param mixed $recordoid  
@param string $recordtable
```

#### Getters et Setters

##### `save()`

Sauvegarde l'état courant de l'objet en base de données.

##### `delete()`

Supprime le stockage persistant de l'objet en base de données.
