2025/11/01 01:52 1/2 The ShopObject Class

The ShopObject Class: Concept of shop

Moodle Integrated Shop: Structural elements

The ShopObject is the base class for all other functional classes of the Moodle Shop. It will provide a basic API for any othe robject and an abstraction layer to the DB storage.

Any object based on this class and telling which DB table it uses will provide a full internal mechanism to deshydrate and rehydrate data from database.

Methods

Constructor _construct

@param mixed \$recordorid
@param string \$recordtable

Getters and Setters

save()

Save the current state of the object to DB.

delete()

Deletes the underlying record.
