Course Element Subtype : Pedagogic advice

the *Pedagogic advice* allows setting in the content flow notes that are intended to help teachers to use the course material. They are usually be written by course authors. The typical case is when a teaching organization centrally edit and build course material that is widely distributed.

As for the *Authoring note*, this element has restricted acces. **It is not visible by students in the standard configuration.**

Render example in course

Element instance configuration

General settings (element specific)

- Choose “Pedagogic note” as the element type. (If the element had previous content, an alert will be triggered).
- A new element name is computed if it was empty.
- Enter the note content.

Visible at page load (option)

If enabled, the note will be expanded when course page loads. this may be usefull for very important notices that teachers must read before starting to exploit the course material.
