## **Professional Development Certificate**

• Component type: Activity module

• Name: PDCertificate (Attestations de formation)

• Versions : m 27 to m 31

Distribution : PublicDisponibilité : Stable.

This module is a fork of the Community Certificate module, transformed to meet the following needs:

- This module allows a more powerful and flexible layout than the community plug-in "Certificate" offered by the Moodle community, allowing to customize each certificate in different ways, with layouts ranging from the formal letter to the diploma in landscape format.
- 1. Course enrol chaining allowing to define "following courses" in which the user will be enrolled after certificate issue.
- 2. Extra role assignment on tje certificed course, one of it's upper category or at site level upon certificate issuing.
- 3. Delivery lock, neading a teacher to get the certificate for physical marking/signing by a local authority.
- 4. Configurable Certification authority
- 5. Delivery unlock can be triggered by an external event from an external plugin such as Moodle shop).

## **Guides**

- Guide d'installation
- Guide d'utilisation
- Guide technique
