Professional Development Certificate

- **Component type:** Activity module
- **Name:** PDCertificate
- **Technical Name:** mod_pdcertificate
- **Versions :** m27 to m51
- **Distribution :** moodlemarketplace
- **Disponibilité :** Stable.

CONVENTION DE STAGE DE FORMATION

This module has been inspired from Community Certificate module, but now is hugely transformed to meet the following needs:

- This module allows now a powerful and flexible layout and content management, allowing to customize each certificate in different ways, with layouts ranging from the formal letter to the diploma in landscape format.
- Data injection of many environmental data (user profile, course, etc.)

Extended Pro features (with active license key)

- Course enrol chaining allowing to define“following courses” in which the user will be enrolled after certificate issue.
- Multiple page layout
- Yet more data injection, from other plugins, grades, etc.
- Extra role assignment on tje certificed course, one of it's upper category or at site level upon certificate issuing.
- Delivery lock, neading a teacher to get the certificate for physical marking/signing by a local authority.
- Configurable Certification authority

- Delivery unlock can be triggered by an external event from an external plugin such as Moodle shop).

- Tecnhical guide

Builds

Branch	Check status
405	MOODLE_405_STABLE failing
501	MOODLE_501_STABLE passing

Note : Failing status is not necessarily the sign of a non functionning module. It just says that the moodle code standards check are not fullfilling. This is a continuous effort of us rewriting the plugin code to get it compliant.
