

Install Guide

Quiz access rule : (Per) User number of attempts

This plugin installs the common way:

- Unzip the archive in the directory `/mod/quiz/accessrule` of your moodle distribution.
- Browse to the Administration notifications to terminate the install process.

What you should need

You may install in addition the block `[blocks:userquizlimits|Userquiz Limits]` to access a Web GUI for the user attempts account management for a specific quiz.
