Hi ! Welcome on this documentation volume intended to provide moodle community with english documentation version of the most populars plugins developed and maintained by APL

Hi ! Welcome on this documentation volume intended to provide moodle community with english documentation version of the most populars plugins developed and maintained by APL

We started this public documentation volume to provide stable locations for EN documentation as required by Moodle.org contributive publications.

[WEB site](#) - [LIVE DEMO](#)

Moodle PLUGINS	
Plugins improve Moodle by adding useful additional features.	

- [Plugins documentation order by type](#)
- [Plugins documentation order by Sub systems](#)

Sub systems are set of plugins that work alltogether to provide a "big feature".

- [Important : read our plugin support policy](#)
