Essential FEL theme: User guide

Managing custom menu items

Site presentation/themes/theme settings

The labels and URLs are separated by a pipe (AltGr key and key 6 at the top of the keyboard, to get the |)

```
    Text to display | chosen url
```

Example:

```
    Home|http://demo.formation-enligne.com/?redirect=0
```

Will point to the home page of the site

```
Library|!http://demo.formation-enligne.com/local/sharedresources/index.php?course=1
```

Will point to the shared library (SharedResources) and will only be visible when logged in, thanks to the ! before the URL

Managing the general presentation

Site administration/Appearance/themes/EssentialFEL

General settings

- Site fonts
- Page background image
- Page width
- Breadcrumb style
- Custom CSS

Example of CSS override for the “Finish activity” button of scorm activities:

```
 #page-mod-scorm-player .breadcrumb-button.pull-right {
 display;starting-block;
 background-color:#0d4267;
 border-radius:8px;
 padding:10px;
 }
#page-mod-scorm-player .breadcrumb-button.pull-right a {
 font-size:1.20em;
 font-weight:bolder;
```

```
color:white;
}
#page-mod-scorm-player .bor{display:none;}
#page-mod-scorm-player h1.coursetitle{display:none;}
```

Applying a theme variant to a course category

Go to the course category concerned, 4 in this example:

http://yoursite.fr/course/editcategory.php?id=4

- Click the cogwheel (category edit) of the course category
- Force theme: choose the desired variant in the dropdown

Managing marketing spots

Appearance/theme/Essential FEL/home page

This is where you manage whether you want 3 or 6 marketing spots (on one or two rows) and their contents

See the rendering with 6 live spots
