FordsonFEL: An advanced bootstrap theme

Menu settings

Access: Site admin/appearance/themes/FordsonFEL/Menu settings

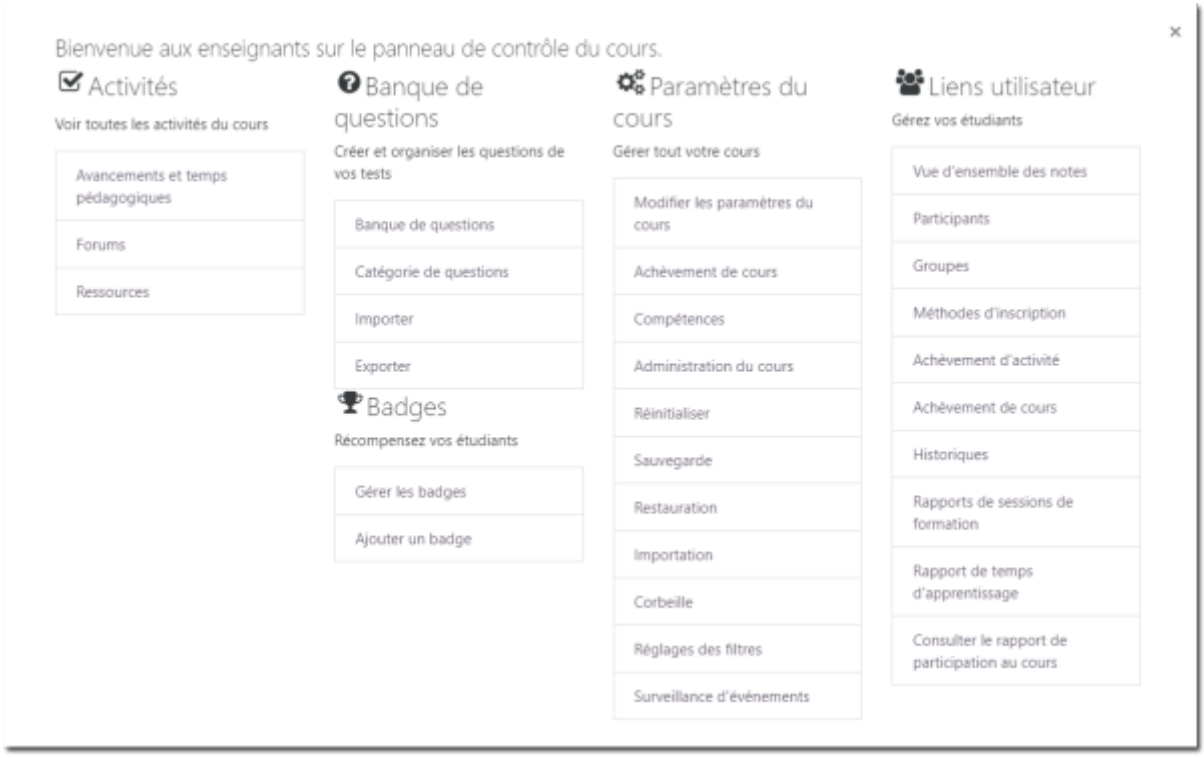

This section presents three elements:

1. Course management panel menu,
2. Dynamic list of the user's courses and course navigation menus,
3. Navigation drawer settings.

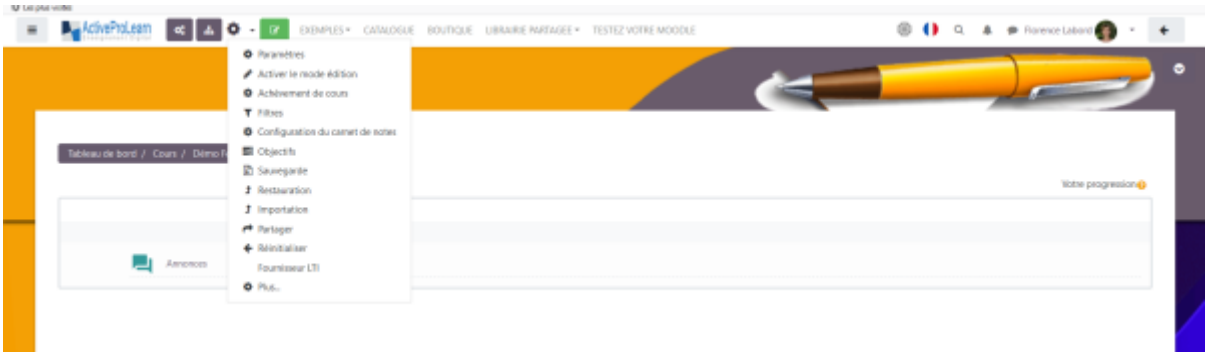

1. Course management panel menu

- **Show student and teacher dashboard panels:** displays the retractable panel at the top of courses - Yes by default.
- **Course management message:** Free entry that lets you set a message that will be displayed in the panel of all courses **for teachers**.
- **Student dashboard message**: Free entry that lets you set a message that will be displayed in the panel of all courses **for students**.

Example of a panel with a message to teachers at the top of the panel

- **Show the default course settings menu:** no by default. Adds a menu giving access to the course settings in a horizontal banner at the top of the platform. **NOTE:** This menu is redundant with the same menu accessible in the panel.

- **Show student grades:** Default: yes - Display of the grades menu in the top panel
- **Show student completion:** Default: yes - Display of the completion donut in the panel
- Show the course administration icon to students: Default: no - Display of the course settings cog in the panel, to let students unenrol from the course.

2. Dynamic list of the user's courses and course navigation menus

- **Show enrolled courses:** Default: No - Show enrolled courses for users in the top navigation bar.
- **Show this course's menu:** Default: No - Show Jump to section in the course menu for users in the top navigation bar. This contains menu items previously found in the top panel.
- **Terminology:** Dropdown list of choices for naming courses (my courses, my modules, my units, my classes, my training, my professional development, my references, my plans, my skills, my programmes, my lessons, my lectures)

3. Navigation drawer settings

For managing the retractable panel on the left:

- **Show the navigation area:** Yes by default. Fordson_fel has eliminated the use of the navigation area by using a dropdown menu for in-course navigation. If you need to use the navigation area, you can check this box to re-enable it.
- **Navigation drawer closed by default:** Close the navigation drawer by default on all pages for all users.
