Klassplace: Course settings

Course display options

- **Section styles:** Choice between 5 styles that will affect **the global rendering of the course**:
  - Boost
  - Bold Notecard
  - Clipboard
  - Fancy section style
  - Corporate style
- Boost: top border in the main theme colour - Minimal branding

- Bold Notecard: Main theme colour as a rectangular background - The most visible blocks to separate the sections of your course

- Clipboard: Main theme colour as a background with “clip” edges - Also very visible - Well suited to a young audience

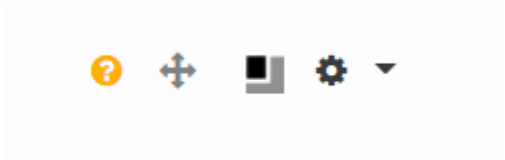

- Corporate: Thin top and bottom border in the theme colour, grey background - Polished corporate-style presentation

Note that colours, fonts and positions can be changed to your wishes through scss overrides.

- **Activity icon size:** size in pixels of the activity and resource icons in courses - Default 32px
- **Custom activity thumbnail width:** Sets in pixels the size of the custom thumbnail of each activity or resource. (black and grey square icon next to activities or resources)

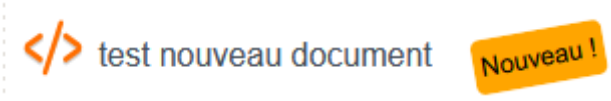

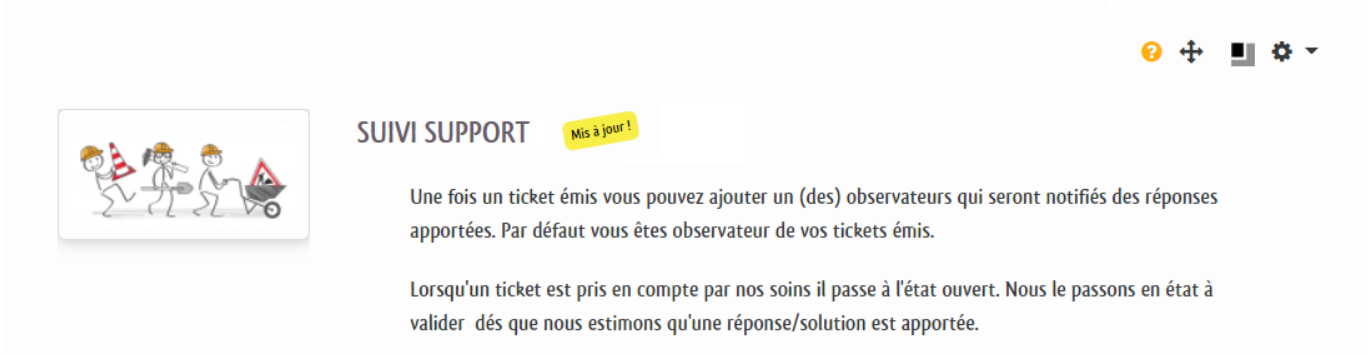

Course thumbnail display options

1. **Course tooltip title:** If course title truncation is used, this function can be used and will display the full course title in a tooltip. Check this box to enable this option.

- **Add the “New” signal:**
  - 0 removes the message, otherwise it is the number of hours it is kept
  - The signal is global to the platform. It therefore concerns all courses and all activities/resources
  - It displays “**New**”, or “**Updated**” if the activity already existed and was simply modified: the activity settings, not necessarily its data content (activity settings edit mode)
- Someone who has visited the added or modified resource no longer sees the signal.
- **Show the signal on labels:** If enabled, the “New” signal is also displayed on course labels and not only on activities/resources.

Example of custom thumbnail and signal

- **Initial state of flexsection:** All closed. This option is useful if you use the Flexsection (flexible sections) course format revised by us.
