Administration tool: LDAP invitations

This administration tool allows a direct search in the LDAP directory associated with Moodle in order to import people who are not listed or not synchronised.

Guides

- Installation guide
- User guide

Feature summary

- Queries the directory to search for people
- Imports the selected users by creating an account for them

Technical sheet

- **Component type:** Administration tool
- **Name:** UserLDAPInvite
- **Name:** tool_userldapinvite
- **Supported versions:** m41 to m53
- **Distribution:** Public
- **Availability:** Public open source.

Builds

Note: a “Failing” status does not necessarily mean that the plugin does not work. This status reflects the result of automated tests checking the code against Moodle's strict standards. We are continuously working on bringing all supported plugins progressively into compliance with these development rules.

Branch	Continuous integration tests
405	custom badge resource not found
501	custom badge resource not found
